

Meet You at The Shed... Soon.

2015 Vision Rendering

From the beginning, Windfall was envisioned as a place where our residents would enjoy comfort, character, culture and community – the four C's that are so important to a relaxed way of life. Our vision for a vibrant social gathering center simply referred

to as The Shed was planned to be the heart of Windfall. We are extremely happy to let our current and future homeowners know that this vision will soon become a reality for those fortunate enough to call Windfall home.

Rustic Yet Refined.

Rustic yet refined with its warm timber and glass, this unpretentious but striking structure is the community's architectural icon. The Shed, along with a turning windmill adjacent to it, will be a central beacon for this charming community and an

active reminder of the rural roots of the area. With its fireplace, pools, patio, a playing field and more, The Shed is part clubhouse, part recreation centre and a four-season social hub of the community exclusively for Windfall residents.
